

North American Short Term

Individual \$34.95
Family \$49.95

In 1989, SkyMed was created for North America travelers with illness or injury could be transported back home immediately for treatment and recovery in their own medical network without restriction or cost. This brings loved ones back together and protects travelers from the financial burden and stress of being somewhere other than home during medical emergencies.

1. Hospital-to-Hospital Emergency Air Transport

SkyMed will arrange and pay for medically equipped air ambulance transportation by fixed-wing aircraft, to the hospital nearest their US or Canadian home. Ground ambulance to and from each hospital is included.

2. Vehicle RV, Auto, Motorcycle and Vessel Return

SkyMed will pay professional drivers for over-land, safe return of operable vehicles (autos, RVs, tow vehicles, trucks) that have been left unattended as a result of a member's critical illness or injury. For vessel return SkyMed will provide up to \$500 per day for a maximum of 10 days to return a vessel to its home marina. For motorcycle return SkyMed will package and transport both road worthy and damaged vehicles to home repair shop.

3. Visitor Transportation

If a member is hospitalized with a critical illness or injury, and they are not air repatriated home, SkyMed will provide round trip transportation on a regularly scheduled flight for a family member or companion to be flown to the hospitalized patient.

4. Transportation for Recuperation Nearer Home

After a member has been hospitalized with a CRITICAL ILLNESS OR INJURY SkyMed will transport the member to a rehab facility near the members transport preference .

5. Commercial Carrier Medical Escort Flights

If a member's condition does not require a private air ambulance, yet the member is not able or permitted to travel as a regular passenger by commercial carrier without an attendant, SkyMed will arrange, and pay for the private care of its member while on a commercial carrier.

6. Minor Children / Grandchildren Return

If as a result of a critical illness or injury, a member's minor children or grandchildren are left stranded, SkyMed will pay for a regularly scheduled airline flight, with an attendant, if necessary, to return them home. Grandchildren under the age of 18 are eligible for all member services when traveling with grandparents.

7. Physical Remains Return

Should an injury or illness result in a member's death, SkyMed will provide for commercial air transportation of a member's remains to their US or Canadian airport nearest their home.

8. Escort / Companion Transportation

SkyMed will arrange for a member's spouse/companion to accompany them in flight on a private air ambulance (space permitting). If space is not available, SkyMed will pay for a commercial flight.

9. Return Transportation After Recovery

After a member has been hospitalized with a CRITICAL ILLNESS OR INJURY SkyMed will transport the member via commercial flight to his/her residence after recovery. The member has sixty (60) days from the hospital release date to implement this service.

10. Incidental Expense Allowance

SkyMed will pay up to \$200 for incidental expenses associated with a member's medical flight.
